

Embark on the *Expedition*

It takes more than an open mind to travel on the *Expedition*. It takes an open heart too. That's because your time at sea is more than just a holiday away — it's a life-changing experience that brings you up close and personal with one of the most fragile ecosystems on our planet.

IAATO & AECO APPROVED

G Adventures is committed to sustainable travel. We ensure that all of our marine expeditions adhere to environmental practices above and beyond the compliance regulations of the regions we explore. Look after the planet and it'll look after you, too.

Extraordinary adventures await

Every moment on the ship is designed to help you learn about the places you're exploring. Whether it's through chatting about glaciers over breakfast with one of our expert guides, attending a morning lecture about the native wildlife, or exploring aboard a Zodiac led by a polar naturalist guide, there's no shortage of opportunities to learn.

We love helping our guests discover what lies at the farthest reaches of our planet. And we strive to do it with such care that, though you may arrive a stranger, within hours you've become part of the family.

Ocean Health Fund

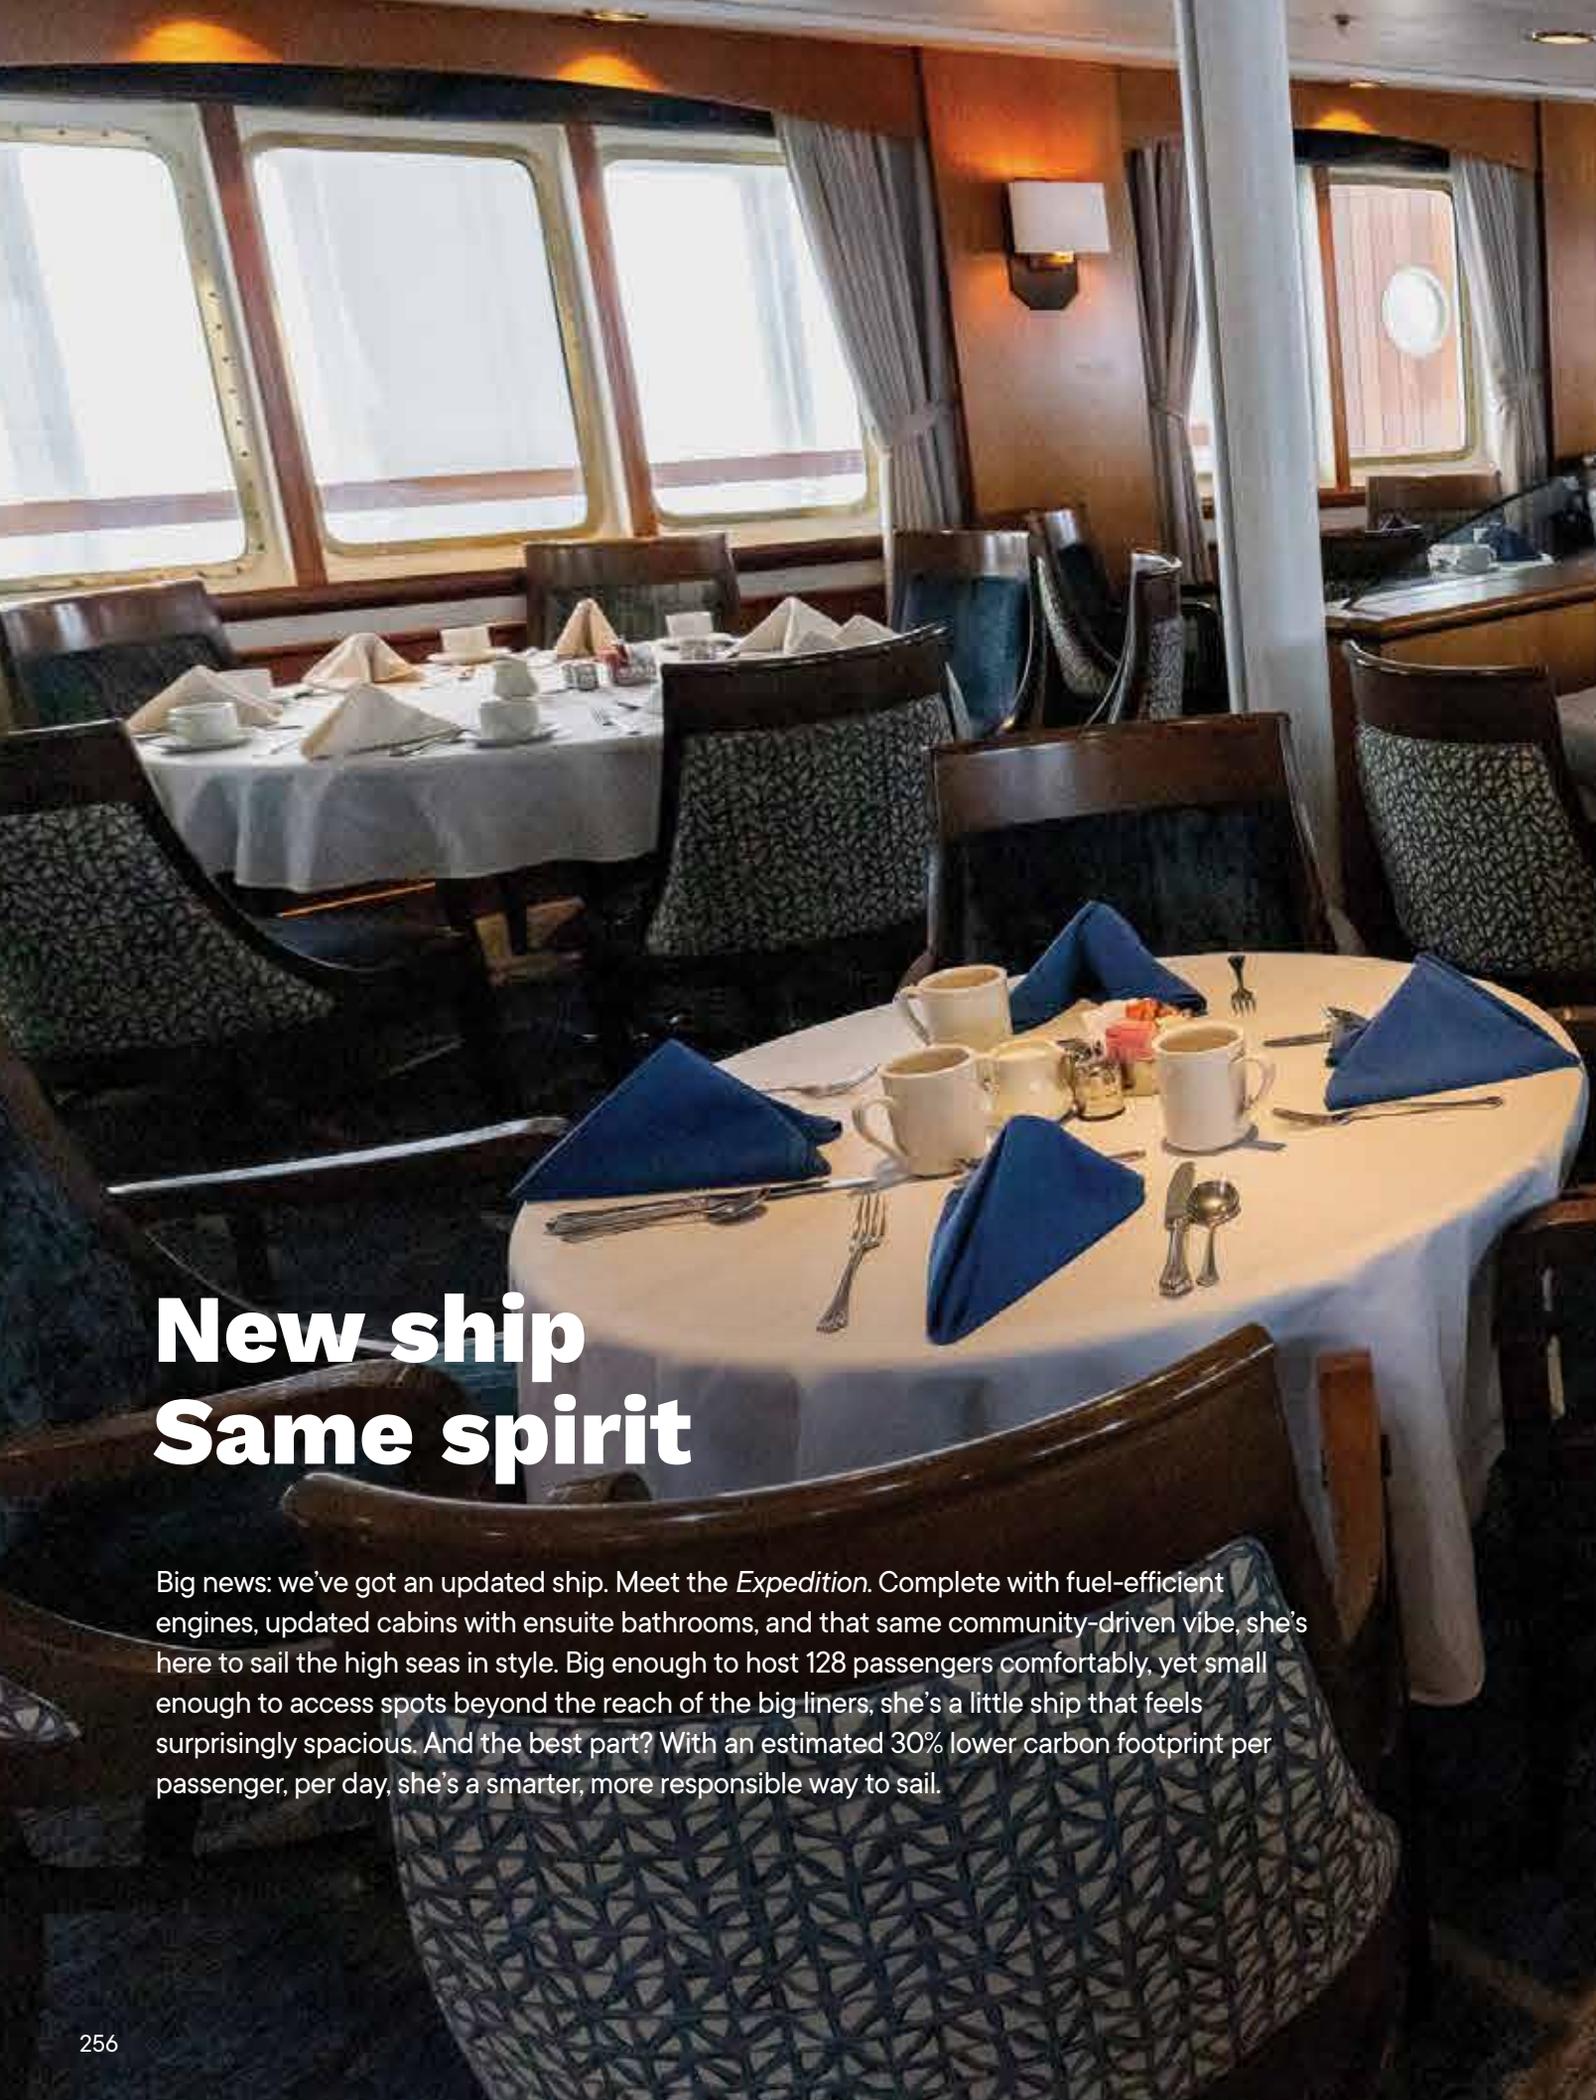

No matter where you live, you are directly affected by the health of our oceans. Our well-being and livelihoods are deeply interconnected with the state of the oceans, from the air we breathe to the food we eat. Tourism has the potential to protect and conserve marine life while exposing more people to the limitless experiences the vast waters offer. On board the *Expedition*, Planeterra raises funds for the Ocean Health Fund: a collection of programs that protect the flora and fauna of our fragile ocean ecosystems. Over the years, the Expedition has helped Planeterra raise over \$450,000 for ocean health initiatives globally.

To learn more, visit planeterra.org/ocean-health-fund

A parka made for adventure

Wear your bragging rights! All *Expedition* passengers receive their own exclusive parka to wear on-trip and to take home afterwards, included with their tour.

New ship Same spirit

Big news: we've got an updated ship. Meet the *Expedition*. Complete with fuel-efficient engines, updated cabins with ensuite bathrooms, and that same community-driven vibe, she's here to sail the high seas in style. Big enough to host 128 passengers comfortably, yet small enough to access spots beyond the reach of the big liners, she's a little ship that feels surprisingly spacious. And the best part? With an estimated 30% lower carbon footprint per passenger, per day, she's a smarter, more responsible way to sail.

Cabins and suites

Get acquainted with your home away from home, long before you step aboard the *Expedition*. The ship's large top-of-the-line cabins provide a variety of affordable twins, triples, and luxury suites.

Ocean views

All cabins are outside-facing with ocean views, with either a window or porthole, that frame remarkable and remote landscapes.

Spacious living quarters

All cabins come with en suite bathrooms, wardrobes, drawers, nightstands, and writing desks to make you feel as at-home as possible.

The G Difference

EXPLORATION AT ITS VERY BEST

Daily landings (conditions permitting) and expert-led outings take you into the heart of the polar landscapes — with historians, biologists, and geologists bringing every glacier, rookery, and fjord to life.

SMALL SHIP = HUGE PERKS

With just 128 passengers and a 10:1 guest-to-expert ratio, our polar program is built to get you off the ship and into the wild — more often, and more meaningfully, than bigger ships.

TOP-NOTCH VALUE. NO FLUFF.

Zodiac excursions, expert talks, gear, and warm hospitality are all included. Who needs butlers and helicopters? Not our travellers. Our polar cruises earn top customer satisfaction ratings without the over-the-top extras.

COME FOR THE ICE, STAY FOR THE PEOPLE

A small-group atmosphere and fun, laid-back vibe create a real sense of community — with our experts, crew, and fellow travellers. For many, it's one of the most unexpected (and unforgettable) parts of the entire trip.

From close-up encounters with icebergs and glaciers to the region's plentiful wildlife, this is a voyage of non-stop highlights. Roaming polar bears, lounging seals, grazing reindeer, and colonies of birds all co-exist in this land few dare to explore.

HIGHLIGHTS

- Spend time on deck searching for polar bears and whales
- Cruise through breathtaking fjords and admire massive glaciers
- Experience the midnight sun
- Learn about Arctic history and ecology from our expert guides
- Brave the Arctic waters and take the polar plunge

Days 2-7 Svalbard/Spitsbergen Visit ice-sculpted fjords with breathtaking mountain scenery and glaciers. Spend time exploring the natural wilderness searching for polar bears hunting seals. Look out for Arctic foxes or Svalbard's unique reindeer at one or more stops. The Expedition staff's goal is to give travellers the best possible opportunity to see wildlife in and around the Svalbard archipelago (dependent on weather conditions). Early-season voyages often provide the greatest opportunity to see large ice floes in the Arctic pack ice, which usually means excellent wildlife viewing. Later in the season, the Expedition will cover more territory, exploring more of the archipelago. This can lead into the less explored regions or the continental edges, where large whales are attracted by nutrient-rich upwellings. (6B, 6L, 6D)

Day 8 Longyearbyen On the departure day, there will be transfers available to the Longyearbyen airport for all travellers. (1B)
